

SUPRANITE® EXTRACTORS

ADVANTAGES

Allows and facilitates the extraction of braided packing rings - from all type of stuffing boxes.

Great flexibility and robustness.

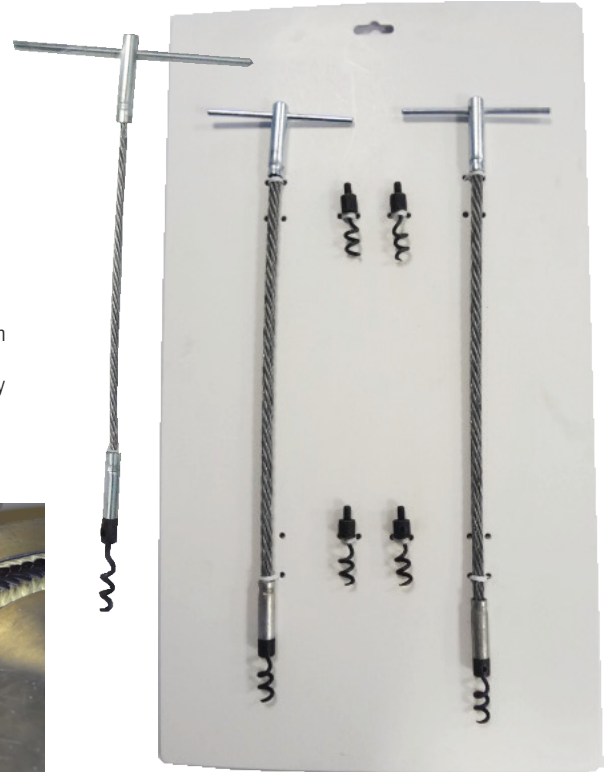

Simple handling.

Should ideally be used in addition of our SUPRANITE® PACKINGS products.

CONSTRUCTION-APPLICATIONS

New generation of extractors, they have been developed by our factories, in order to facilitate the extraction of **SUPRANITE® PACKINGS** rings. With their new shape and handle system, specially developed (see demonstration pictures below), **SUPRANITE®** extractors have been specifically designed for easy handling.

SUPRANITE® extractors are flexible so they can access to every angle even the most difficult ones.
